

CONTENTS

<i>Foreword</i>	11
1. Quantavolutions	15
PART I: ATMOSPHERICS	29
2. The Gaseous Complex	30
3. Hurricanes and Cyclones	49
4. Magnetism and Axial Tilts	62
5. Electricity	86
6. Cosmic and Terrestrial Lightning	100
7. Fire and Ash	115
PART II: EXOTERRESTRIAL DROPS	135
8. Falling Dust and Stone	136
9. Gases, Poisons and Foods	154
10. Metals, Salt and Oil	174
11. Encounter and Collisions	202
PART III: HYDROLOGY	221
12. Water	222
13. Deluges	232
14. Floods and Tides	247
15. Ice Fields of the Earth	270

PART IV: CRUSTAL TURBULENCE	286
16. Earthquakes	287
17. Volcanism	303
18. Sinking and Rising Lands	318
19. Expansion and Contraction	346
PART V: RIFTS, RAFTS AND BASINS	359
20. Thrusting and Orogeny	360
21. Ocean Basins	376
22. Fractures and Cleavages	396
23. Canyons and Channels	410
24. Continental Tropism and Rafting	425
25. Sediments	453
PART VI: BIOSPHERICS	467
26. Fossil Deposits	468
27. Genesis and Extinction	488
28. Pandemonium	510
29. Spectres	523
PART VII: DIMENSIONS OF QUANTAVOLUTION	539
30. Intensity, Scope and Suddenness	540
31. The Recency of the Surface	565
<i>Epilogue</i>	588
<i>Index</i>	593
